

Thanks for trying out our Visitor Kits!

Making professional and consistent layouts every week, personalised per visitor, that's quite a job. Now it's a copy/paste and click operation.

Professional looking and conversion boosting tools for BNI-Chapters:

- A clear Badge for each visitor with optimized legibility
Looks **professional en well organized**
- A preprinted personalized Receipt for each visitor
saves pre-meeting time and supports a warm welcome
- A Table Card in BNI housestyle for each visitor
facilitates **strategical table layout**
helps the chapter director when welcoming the visitors
displays the **meeting agenda on the back** for better involvement
- A conversion slip aka feedback or response slip
to make sure that the visitors answer the most **crucial questions**. Again: better conversion, better follow-up and: it **generates new 2nd ring visitors**
- A 'basic' placemat (Account required, free trial)
A list of all your meeting participants, with annotation space for specific questions and more. If you fill them out in your user profile, Open Classifications and Upcoming 10-minute Presentations will be displayed instead of the default action list at the bottom of the placemat.
- Special requirements?
Everything you see is custom made. If you have suggestions, let us know. If we think they could be useful for others as well, we might implement them.

Personalization boosts conversion. The after meeting talk can generate more visitors. Ant's Visitor Kits make any host a conversion king - [if he does it right. Browse our site for tips.](#)
